Image Slider

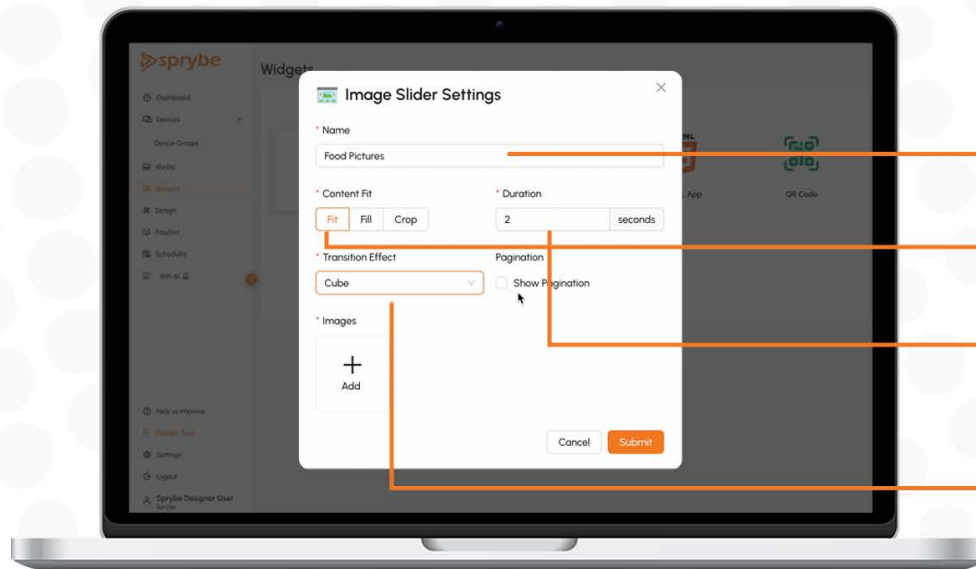

Image Slider Widget

Step 1: Selecting a Image Slider Widget

- In the left-hand menu, click on “Widgets”.
- From the list of available widgets, choose “Image Slider Widget”.

Step 2: Configure Image Slider Settings

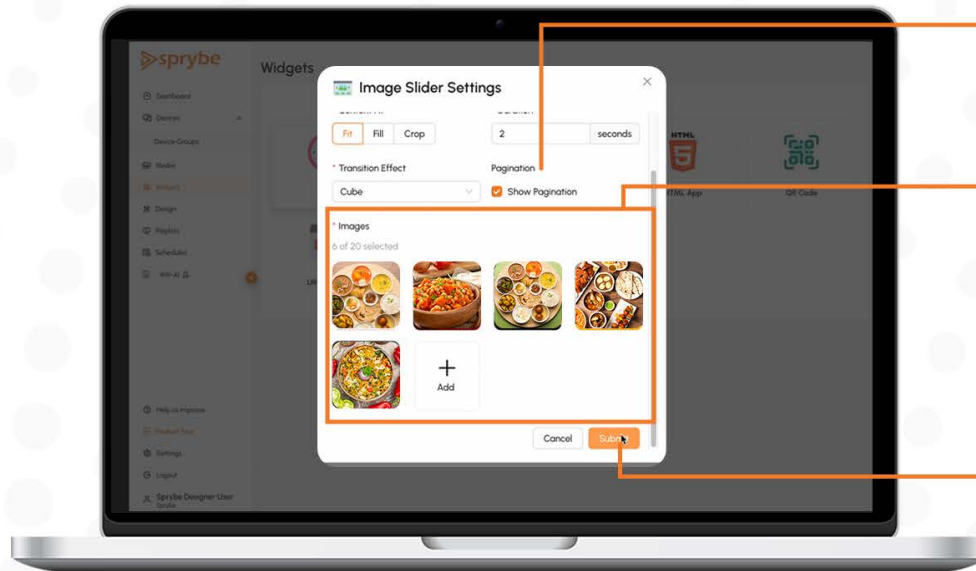

A Image Slider settings modal will appear. Complete the following:

- **Name:** Enter a name for your widget.
- **Select the content fit mode** that best matches your display layout.
- Configure the **slide duration** to control how long each slide appears on screen.
- **Choose a transition effect** from the available options to enhance visual flow between slides.

Step 3: Configure Image slider Settings & Save

- **Enable pagination** by checking the pagination option if you want navigation indicators for your slides.
- **Choose images with similar dimensions** to maintain a consistent display. Select a set of images that complement each other visually and fit well within the design layout.
- Click **"Submit"**

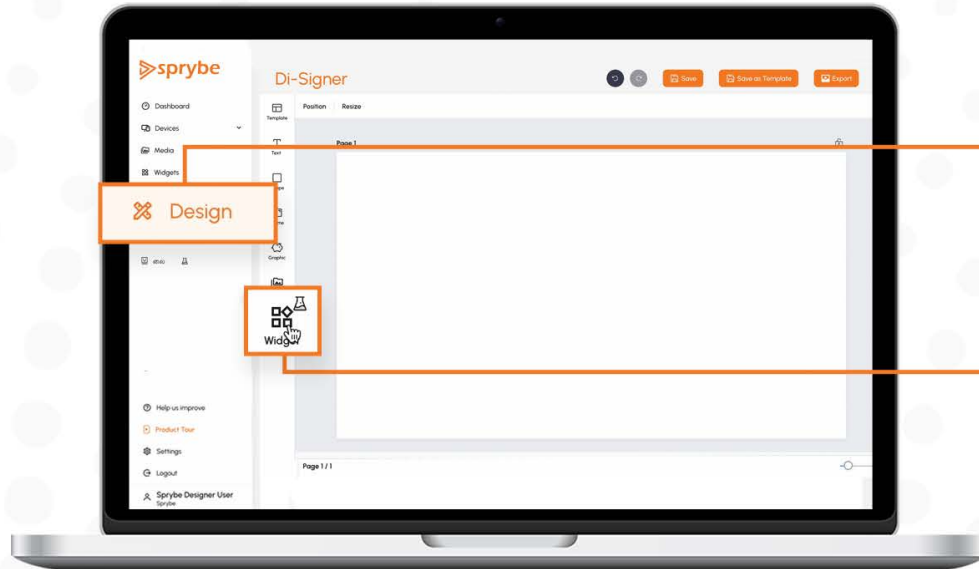

Step 4: Saved tab

- Go to the **Saved** tab to view your saved widgets.
- Here, you can edit, view, or delete any widget.

Step 5: Add the Image slider Widget to a Design

- Open the Design Section
- Choose a blank template.
- Select Widget in the left panel.

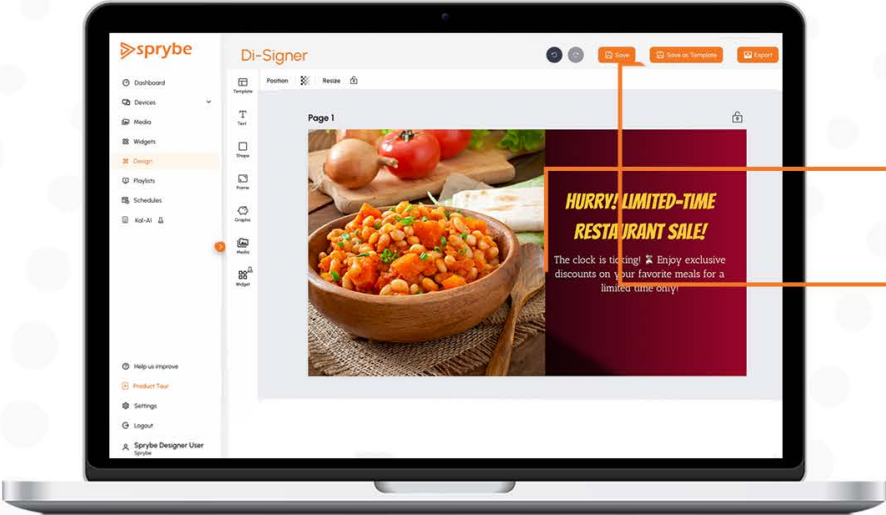

Step 6: Saved tab

- Navigate to the Saved tab and select your saved Image slider Widget.

Image slider Widget

Step 7: Add the Image slider Widget to a Design

- Resize and reposition it as needed.
- Save your design.

Step 8: Publish to your Screen

- Add the design to a playlist.
- Publish to your screen to display the Image slider widget.

The image slider displays images transitioning in a carousel layout, as shown above
